Ogden Trails just Keep Getting Better

Community volunteers and members of the Ogden Trails Network have been making great improvements this summer on Ogden's trails.

When the work is completed, hikers and bikers will find their experience on both paved and unpaved trails has been significantly enhanced due to the addition of 1,000 directional signs

posted throughout the city's 75 miles of urban and foothill trails. Materials for the project were paid for in part by a grant from Weber County's Recreation, Arts, Museums, and Parks (R.A.M.P.) program.

The Ogden Trails Network committee is also working with Weber State University to develop the first interpretive trail

in the Ogden area and with The Front Climbing Club to provide clearer access to public climbing areas east of the city.

Stay connected and informed of trail progress on Facebook at facebook.com/ogdentrailsnetwork. Some trail segments are still available for organizations to "Adopt-a-Trail," call 801-629-8921.
