Budget Season is Underway

In the Council Meeting of May 3, Mayor Michael P. Caldwell presented the proposed Ogden City budget for the Fiscal Year 2023. The Council is reviewing the departmental budget in May and June.

What's in the budget?

City employees are the primary focus of the proposed \$251 million budget. The mayor is proposing a 13% salary increase for general employees, a 14% salary increase for sworn fire employees, and an 8% salary increase for sworn police employees, who received additional increases last fall.

How will those increases be paid for?

An additional \$2.8 million is needed to fund these increases. The funding will come from increased sales tax revenue and an increase in the certified tax rate, or property tax. Since a tax increase is being proposed, the Council is required to go through the Truth in Taxation process, which will allow for additional time for residents to provide input on the budget and proposed tax increase. More specifics about the tax increase will be available once the certified tax rate is provided by Weber County.

Why is Ogden City increasing salaries?

Attracting and retaining employees has been of great concern to Ogden City. Without qualified, hard-working individuals working to benefit residents on behalf of the city, the quality of service expected from a municipality cannot be met. Our employees are the means by which the Strategic Directives of Economic Development, Community Safety, Recreation, and City Image & Appearance are addressed.

How can I have my voice be heard?

Below is a tentative schedule for public hearings regarding the budget:

- **June 21:** Public Hearings regarding the Capital Improvement Plan, Utility Transfers, Salary Schedules, and the Fiscal Year 2023 Budget, if a tax increase will not be considered.
- **August 2:** Public Hearing regarding the Fiscal Year 2023 Budget if a tax increase will be considered.

Your input as an Ogden resident is always welcomed and encouraged. The Council can be reached by emailing citycouncil@ogdencity.com or calling 801-629-8153.

Follow the Ogden City Council on Facebook, Twitter, and Instagram to stay updated with the latest on the proposed budget. To join the Council's email list, visit:

Diversity Commission Meetings

Second Wednesdays 4:30 p.m.

Business Depot Ogden Celebrates New Thermo Fisher Scientific Facility

In April, Thermo Fisher Scientific celebrated the opening of their new facility at Business Depot Ogden. The company is focused on producing high-quality technology and materials needed to develop new vaccines and medical therapies, like those required to fight Covid 19. Thermo Fisher has already hired 300 employees from the area, with 150 more posts yet to be filled.

U.S. Representative Blake Moore, Senator Mike Lee, Senator Mitt Romney, and Ogden City Council members Angela Choberka, Ken Richey, and Council Vice-Chair Luis Lopez attended the opening. Senator Romney met with Thermo Fisher Scientific CEO Marc Casper to discuss the \$44 million facility. He was asked, "what brought you to Ogden that made you decide to expand here? Was it the mountains, the beauty, the chance for outdoor recreation? He said, "it's very simple—it's the quality of the workforce." Romney then explained what makes Ogden so great, "The people here have experience that's relevant, sometimes education that's helpful for the job, they take pride in the work they do, and these are people who show up on time."

Representative Moore saw this expansion as a way to bolster Ogden's growing manufacturing industry further, saying, "Why do we come out of every economic downturn better than any other place in the nation? It's manufacturing."

Ogden City supports Thermo Fisher Scientific and many other companies that bring high-quality jobs to the area.

Emergency Preparedness: Electrical Safety

We rely on electricity every day, but electricity can be dangerous, especially if misused. Electrical malfunction is a leading cause of home fires year after year. Here are some tips to reduce accidents and fires:

- **Electrical work should only be done by a qualified electrician.**
- **Check your electrical cord. If they are cracked or damaged, replace them, don't try and repair them.**
- **Don't overload extension cords or wall outlets.**
- **Never use extension cords with appliances. Plug them directly into wall outlets.**
- **Use light bulbs that match the recommended wattage.**
- **Unplug small appliances when not in use.**
- **Keep lamps, light fixtures, and light bulbs away from anything that can burn.**
