Land Use Permit Checklist

- **Ownership Plat** showing the property, the parcel number and the owner. This is available at the Weber County Recorder's office at 2380 Washington Blvd. or <http://www3.co.weber.ut.us/psearch/>
- **2 sets of site plans** showing your property and where the buildings are positioned on it. You can draw this yourself:

Step 1: Draw the basic shape of your property (the lot your house is on):

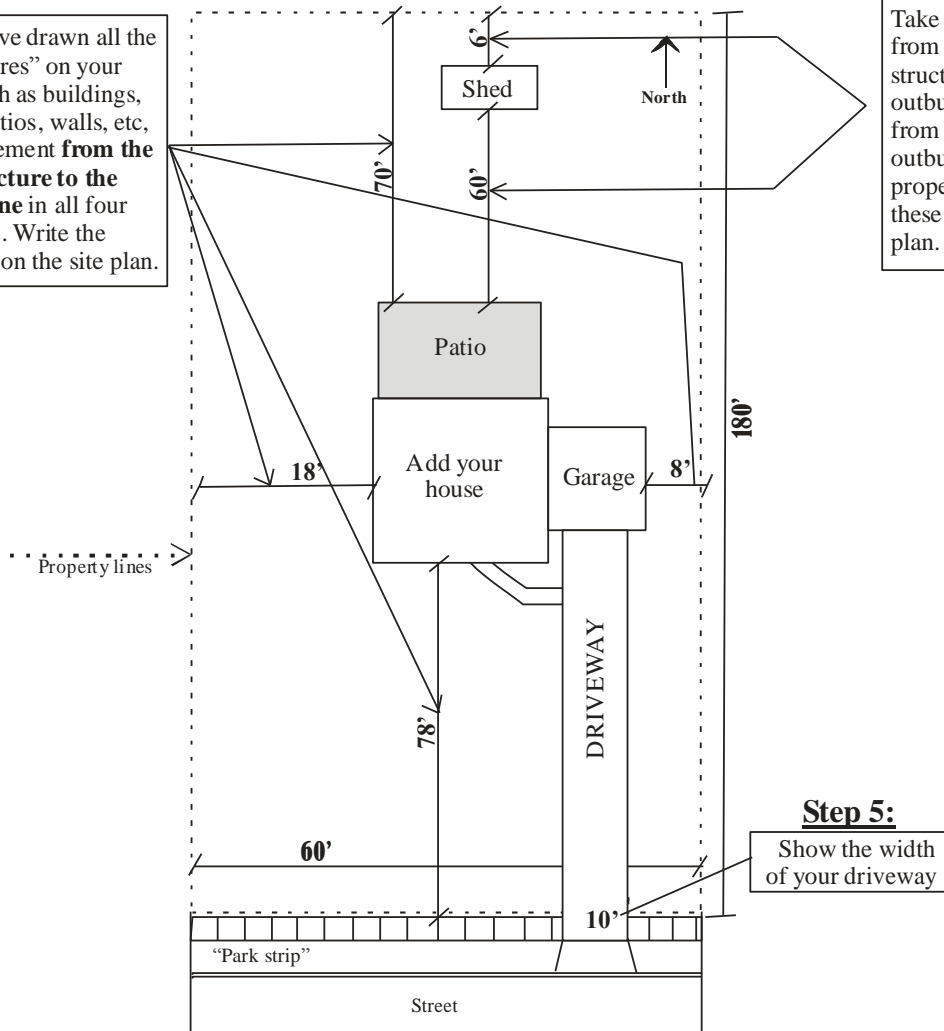

Step 2: Draw all the permanent structures....

Step 3:

After you have drawn all the "hard features" on your property, such as buildings, driveways, patios, walls, etc, take a measurement **from the main structure to the property line** in all four directions. Write the measurements on the site plan.

Step 4:

Take measurements from the main structure to any outbuildings, and from those outbuildings to the property line. Write these on the site plan.

Step 5:

Show the width of your driveway

NOTE** This is a sample site plan of an imaginary property. **Do not use it for your property.** Use it only as a guide to draw your own site plan. Your drawing can be done simply with a pencil and ruler. It does not need to be computer-generated.
